Grab a free PS3, Wii, Xbox 360 Elite, HDTV and more from the best UK Giveaway Networks!

The aim of this guide is simple - to help you obtain free gifts from the UK's best giveaway referral sites in less time than it would take to save for them.

I have personally received a staggering amount of freebies since the middle of October 2006. Those who purchased this guide from me via eBay (take a look at [my eBay profile](#)) will already have seen some of the items that I have resold, although latterly I have chosen bank transfer or vouchers rather than receiving and selling physical gifts.

My friends at [eXceem](#) have also profited from the process, amassing over £250,000 between them. They are just ordinary people like you and me.

How it Works

The phenomenon of referral marketing has recently swept the U.S. by storm, through what is essentially an advertising

The key to the referrals system is that the referral website is paid by the sponsor for every customer who clicks on and signs up for a trial offer with that sponsor. So if someone signs up for a LOVEFiLM free trial through PS3 giveaway, PS3 giveaway will receive X amount of money from LOVEFiLM. When this person then goes on to refer 13 other people to PS3 giveaway (and if each of the 13 people sign up for a free LOVEFiLM trial), then PS3 giveaway will receive payment from their sponsor for each of these 13 people.

The result is that the referrals website receives sufficient funding to send the customer their free gift and to operate the referral site.

Typical referral rates (not an exhaustive list):

Item	Referrals Need
iPod Shuffle	2
Xbox Live! – 12 month subscription	3
30gb iPod Video	5
£100 Amazon Vouchers	5
Nintendo Wii	8
17" Samsung LCD TV	9
Xbox 360 Elite	12
Sony PS3	13

4. Refer

I have included a "How to get referrals" section for some basic pointers on where to start. I was lucky enough to have the support of family and friends and once the first free gift came in life became a lot easier.

When you get a sign up to one of your referral sites, their e-mail address will typically show up yellow. When they complete an offer, it will turn green when confirmed.

Your referrals are therefore commonly talked about as "Yellows and Greens".

Note that one of the referrals has been reversed because they did not receive at least on DVD during their LOVEFiLM trial period.

The screenshot shows an account status page with a header "Account Status". On the left is an image of a silver iPod Nano 4GB with the text "New! iPod Nano 4GB (Silver) [Change Item]". On the right, a blue box contains the text: "Offer Complete! You have completed your own offer. 5 / 7 Referrals You currently have 5 of the 7 referrals needed to claim your free New! iPod Nano 4GB (Silver)". Below this is a section titled "Your Referrals" with a table of referral details.

ID #	Email	Status

5. Verification

When you have obtained the required number of referrals, you can activate the verification process. This typically takes two to three weeks but some networks are now looking at a weekly cycle.

During this time, the network will check that all of your referrals are legitimate. If any are found to have broken their terms and conditions or tried to play/defraud the system, they will be put on hold (and you will lose the referral).

Common reasons for going on hold include setting up multiple accounts or registering more than one account at the same residential address.

 Your account is currently being verified. Next verification will take place on Monday 27th August

How To Get Referrals

Most of us are skeptical by nature and some will take a lot of convincing to sign up and take out even a free offer. It is therefore important that you develop a method that works for you and makes the best use of your time.

Here are a few that have done me proud at different times:

- [eXceem](#) has a trades section. You sign up to a user's chosen site in exchange for them doing the same on one of yours.
- Family, friends and work colleagues are a great source of referrals. Just remember though, you cannot have two accounts signed up from the same residential or I.P. address.
- Put together some flyers and post them around your area, local college, university etc. Hand them out at car boot sales and anywhere else people may be after a bargain.
- Set up your own freebie website and promote your referral link on social networking sites such as Twitter, Bebo and Facebook (without spamming of course).
- Get hold of some free business cards to promote your site. Use free link exchanges, classified ads and the like to attract visitors.

Proof

Take a look here at some [proof](#) that the system works.

The main source of advice and much inspiration for Gadgets4nowt has been the ever growing freebie community at [eXceem](#). If you have taken the time to pay them a visit but are still not convinced, then I am not going to try to hard sell - please walk away, this is not for you.

If you have a minute, also visit [my eBay profile](#) and you will see just a few of the items I have received and sold on.

About Me

I sat down to write this section of the guide and initially drew a bit of a blank - does it really matter to you who I am and will knowing help you get your free iPhone 3GS, PS3 Slim, Wii, Xbox 360 or HDTV, or maybe at least give you some comfort that the concept really works?

That is for you to decide I guess; all I can do is give you the facts.

I discovered the freebie scene by accident in October 2006 and have been a regular contributor to [eXceem](#) ever since under the guise FurbtasticM (don't ask!)

The free goods have come in thick and fast over the last three years and you will see from my [eBay Profile](#) that most have been sold on. I pride myself in doing the job right and had a feedback rating approaching 300 at the last time of looking - all 100% positive.

So, there you have it, you now know that I am a real, genuine guy, please don't be afraid to ask if you need any help.

FAQ

Q. How can I contact you?

A. Drop me an [e-mail](#) and I will get back to you with 24 hours. I am equally happy to speak with you via MSN or over the phone;

Q. Are these products really free?

A. Yes! For every offer that is completed, the giveaway network is paid by their advertisers. They use that money to pay for your free gift!

Q. Really, genuinely free?

A. These people would definitely say so - [click here](#) for a totally unbiased view from people just like you!

Q. Do I need to spend any money completing offers?

A. No! A lot of the offers are free trials or joining web sites for free. You don't need to spend a penny.

Q. Which offers would you specifically recommend?

A. The free ones!

A. LOVEFiLM is featured on most networks and is a totally free DVD rental trial. Look out for the logo and make sure that you receive at least one DVD during the trial period to qualify for credit. **DO NOT** cancel **before** receiving your first DVD!

Q. I have completed an offer but the giveaway site is not showing that as confirmed.

A. Tracking is generally automatic but things occasionally slip through the net. If you have completed an offer and have not received credit after 5 working days, then you should submit a "No offer credit" support ticket via the free giveaway site's support system.

Q. How long will the process take?

A. That depends on a number of factors. The time it takes you to get the required number of referrals is key and processing times vary from network to network. On average, you could realistically be looking at two months, start to finish.

A. That's not really long to wait though, it's free after all!

Q. Can I create more than one account?

A. To ensure quality offer completions and the highest payout of offers (to give you the best gifts for a low referral cost), the web sites do not permit you to create more than one account.

Q. Will I receive spam from you or any of the web sites?

A. The networks take their spam policy very seriously and will never sell your information or send you spam.
